

PREP WILDERNESS!

THIS WEEK

ENDANGERED VS EXTINCT

We have been exploring the difference between endangered animals (low numbers) and extinct animals (none left in the world) >

ANIMAL SURVIVAL NEEDS

There are 4 basic needs of all animals:

SORTING ACTIVITY

REMINDERS

We have our Zoo excursion on Monday the 10th November. Please check PAM for permission.

PREP WILDERNESS!

STUDENT CORNER

**A FOX IS A WARM
BLOODED ANIMAL
- FLETCHER**

**A WOLLY MAMMOTH LIVED
WHERE IT SNOWED
AND WENT EXTINCT
- VALENTINO!**

**SOME ANIMALS ARE
WARM-BLOOD AND
OTHERS ARE COLD
BLOODED
- MILA F**

**ANIMALS NEED FOOD,
WATER, SHELTER AND
OXYGEN TO SURVIVE!
-ROSIE**

NEWS

We have given our applications to the Grade 1's to seek permission to be the primary carers of Columba's guinea pigs (Foxy, Oreo and Cappy). This will help us to build our knowledge and application of how to care for animals.

Dear Grade 1's,
Can the Preps please look after the guinea pigs?
We will give them food like hay, grass and vegetables.
We will also ^{give them} shelter including beds, toys and a litter box. When outside we will put them under cover.
We will give them a special water bottle to drink from.
We will care for them by holding them in the beds and with 2 hands.

We will give them the best time of their lives and lots of

♥ Love! ♥

From the caring, grateful, respectful
and loving Preps.
